

Light weight hand torch

SS140 Series

# VALVELESS TORCH

Q: Can I **CHANGE** head type of valveless ?

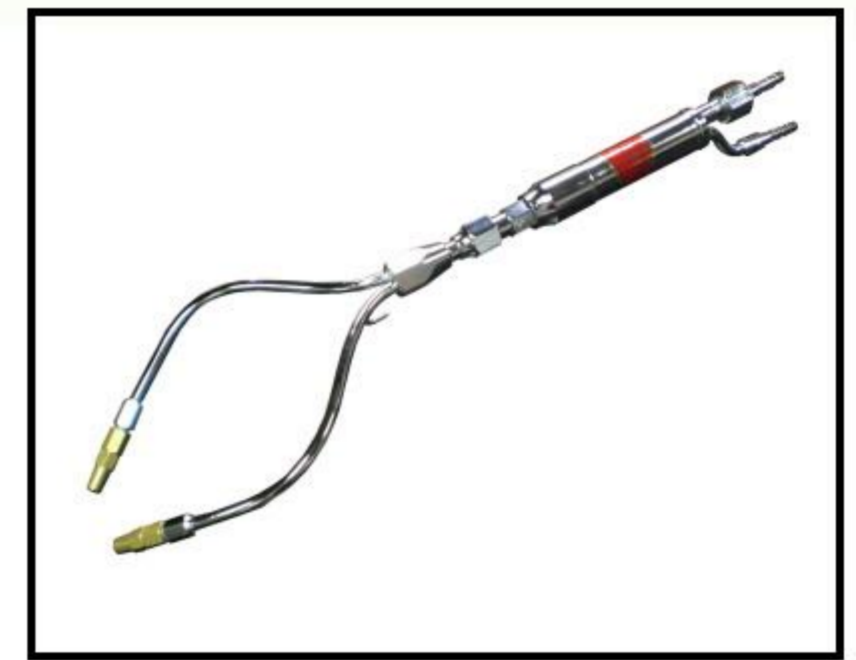

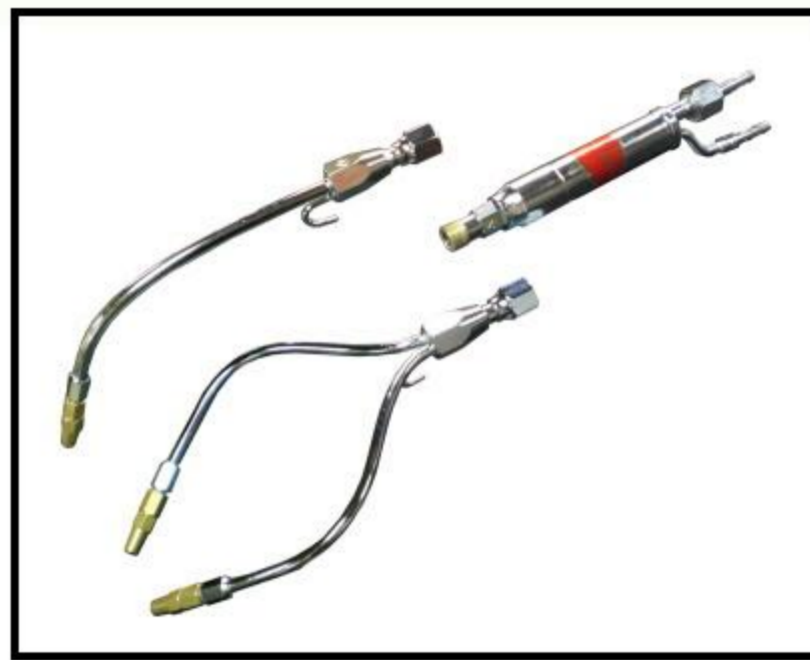

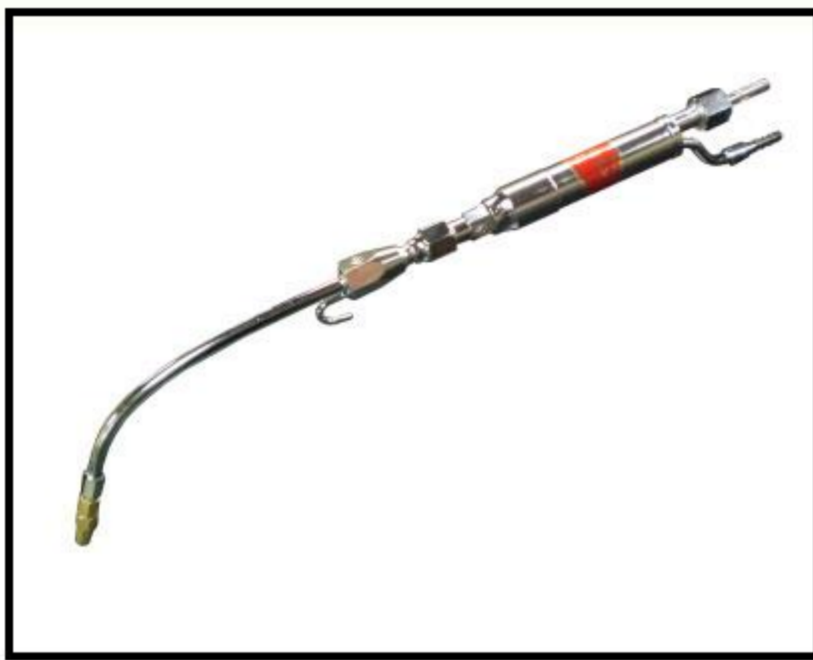

A: **YES, WE CAN!!**

**Lightweight Design**

**Head type Replacement**

**Superior Durability**

## Lightweight Design

VALVELESS TORCH is a commodity that achieved lightweight design as its name suggests by removing the gas adjustment valve from the main body of the torch. The taking turning of the torch becomes smooth by connecting weight (250g~280g) of about 1/2 and the  $\phi 5$  hose compared with a past commodity, and past commodity, and the work efficiency improves, too.

## Head type Replacement

The portability performance has improved greatly compared with a past product the adoption of the head substitution method because it can correspond only by changing the main body when single head and twin head are changed according to work, and the gas kind is changed.

## Superior Durability

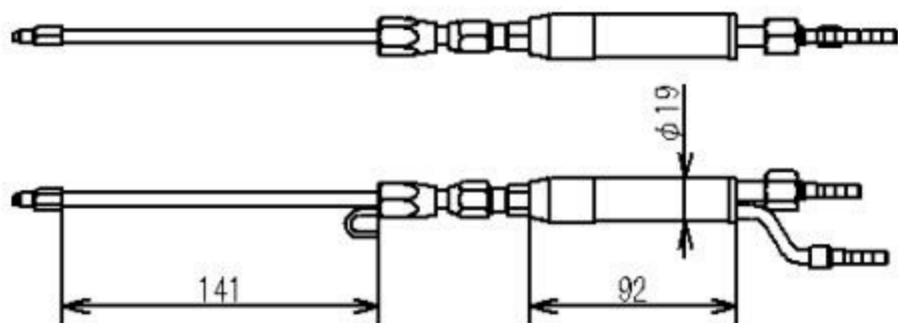

The most delicate part in the torch becomes a gas adjustment valve. A needle shape spindle bends by a few impacts and there is a case that becomes unavailability for the impact because it is a very weak part. Durability went up greatly by removing the gas adjustment valve from the torch. Please adopt it by the thing that it is light, the taking turning is also good, and it is not easy to break down in addition on a lot of gas welding sites regardless of the inside and outside the country.

## SPECIFICATION

### SS14 1 - 6 -

Single Head  
Tip Screw Size: M6 × 1.0  
Length: 385mm  
Weight: 250g

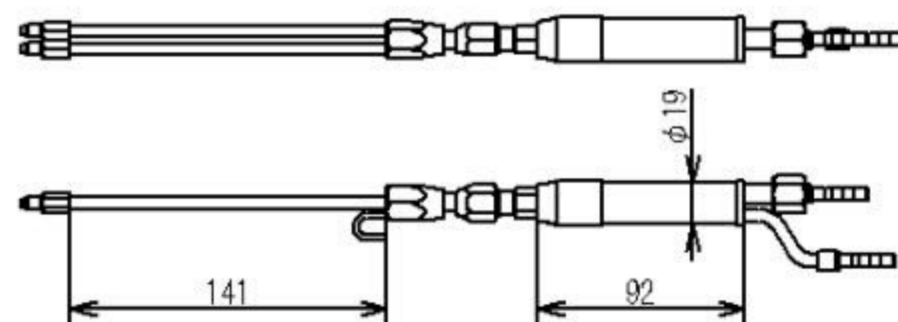

### SS14 6 - 1 - 6

Single Head  
Tip Screw Size: M6 × 1.0  
Length: 210mm  
Weight: 80g

### SS14 2 - 6 -

Twin Head  
Tip Screw Size: M6 × 1.0  
Length: 385mm  
Weight: 270g

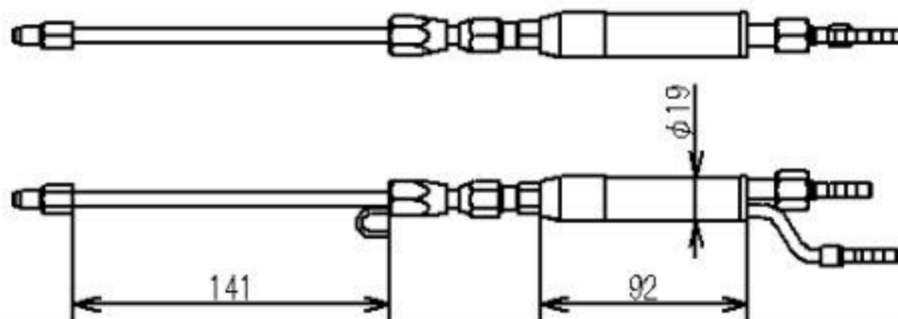

### SS14 6 - 2 - 6

Twin Head  
Tip Screw Size: M6 × 1.0  
Length: 210mm  
Weight: 100g

### SS14 1 - 8 -

Single Head  
Tip Screw Size: M8 × 1.0  
Length: 390mm  
Weight: 255g

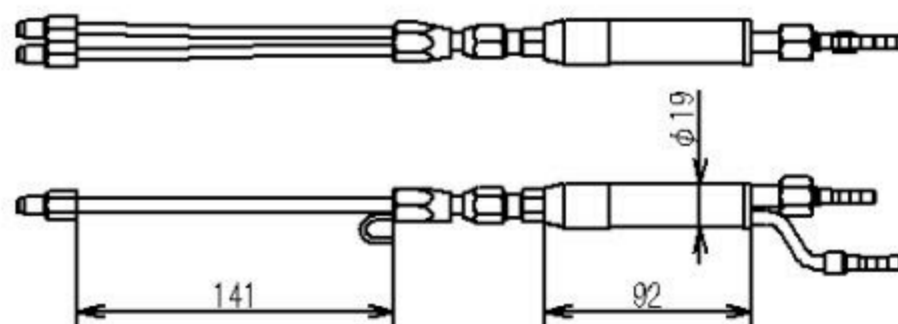

### SS14 6 - 1 - 8

Single Head  
Tip Screw Size: M8 × 1.0  
Length: 215mm  
Weight: 85g

### SS14 2 - 8 -

Twin Head  
Tip Screw Size: M8 × 1.0  
Length: 390mm  
Weight: 280g

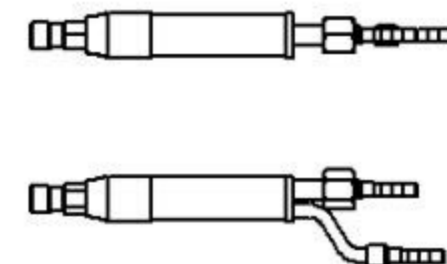

### SS14 6 - 2 - 8

Twin Head  
Tip Screw Size: M8 × 1.0  
Length: 215mm  
Weight: 110g

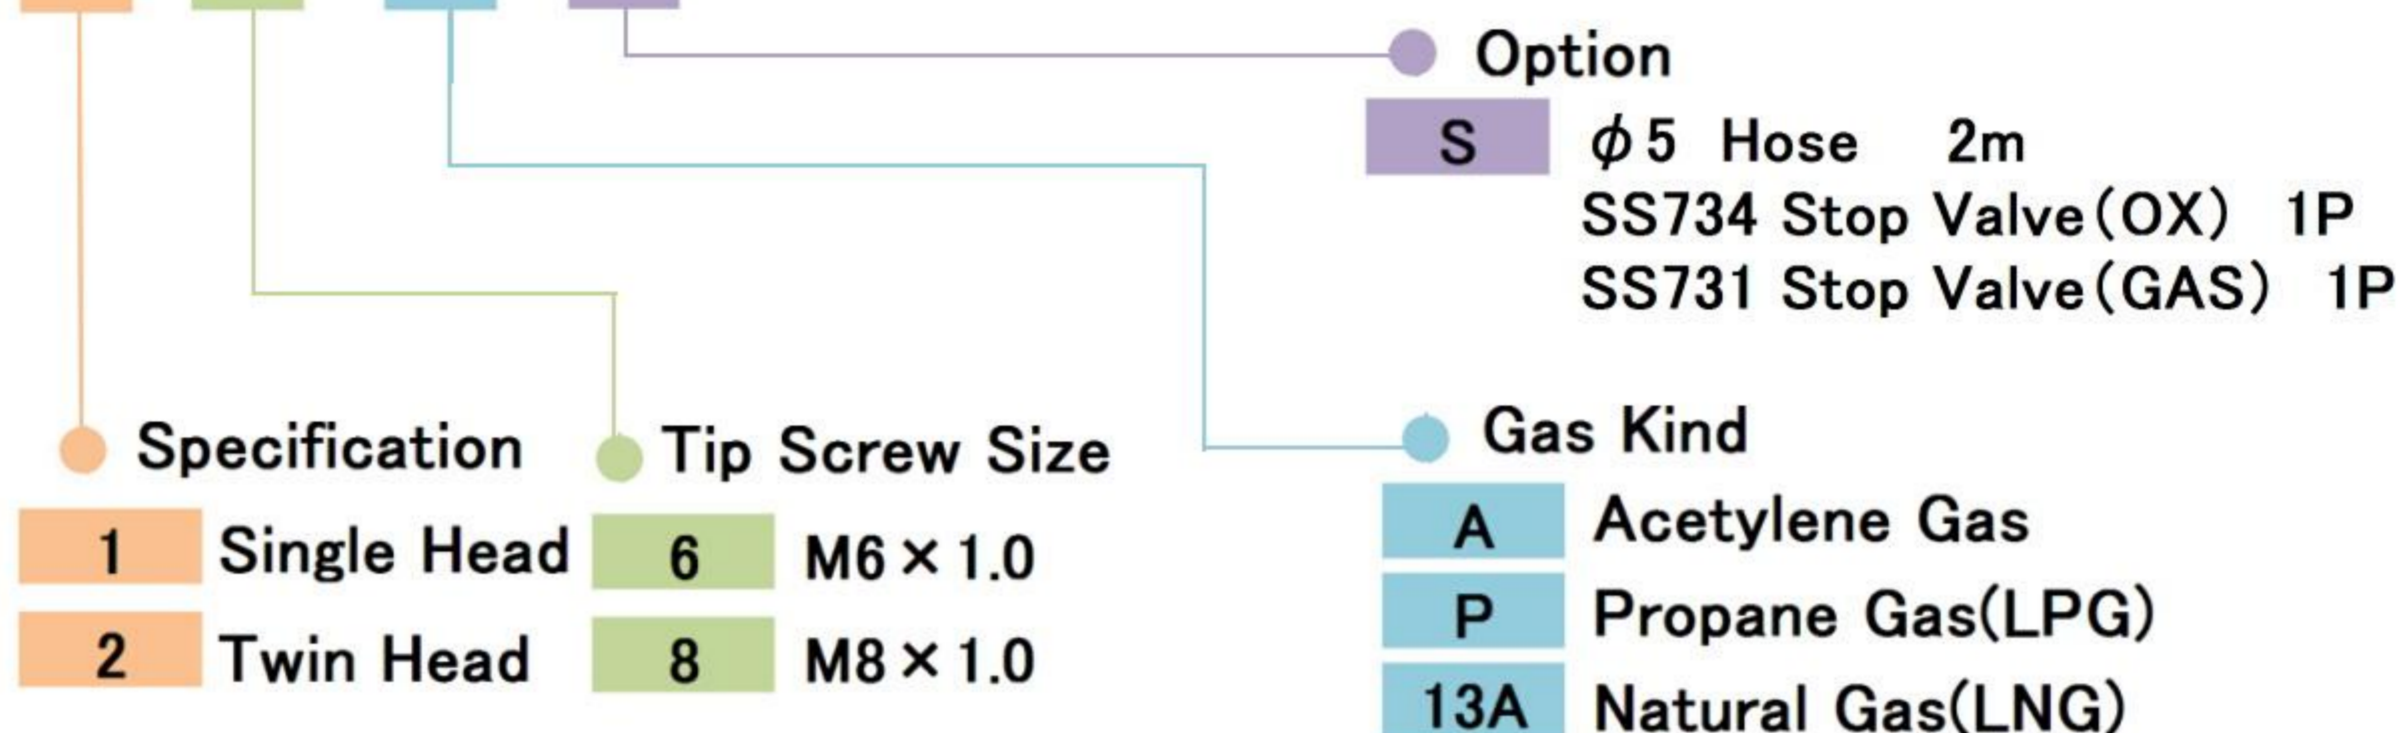

### SS14 5 -

Hose Joint: φ5 Hose Joint  
Length: 175mm  
Weight: 170g

## HOW TO ORDER

# SS14 1 - 6 - A - S
